Sir,

Works- Constructing a latrine in Sodemutt lane- on acceptance of tender above estimate rates- sanction solicited.

ENCLOSURES.....

SPARE COPIES.....

Ref:- Letter No. 1635M dated 3-8-1942 of the Superintending Engineer, Coimbatore circle.

The District Health Officer, South Kanara, in his inspection notes was repeatedly making a suggestion that the -- Municipal Council should provide more public latrines in the town which is a perennial pilgrim centre. An estimate for the construction of a latrine with eight seats was prepared and sanctioned by the Council in its resolution No. 14 dated 29.3.1943 (copy enclosed) and tenders were invited soon after. As the rates provided in the estimate were as per schedule of -- rates sanctioned by the Council in December last, which were far less than the District Board rates for similar works within and immediately outside the Municipal area, there was no competition among the contractors. Only one tender quoting 20% above the estimate rates was received and it was accepted by the Council in its Resolution No. 13 dated 19-4-'43 (copy enclosed). The Council further directed that the work should be commenced at once. Accordingly an agreement was obtained from the Contractor and he was asked on 20-4-1943 to immediately begin the work. The work is now in progress and almost nearing completion.

2. In G.O. No. 1491 L.A., dated 8-4-'43 published as supplement to Part IA of the Fort St. George Gazette dated 27-4-'43 a rule was issued to the effect that tenders which exceed the estimate rate or amount shall not ordinarily be accepted and that, where on the ground of urgency or for other special reasons it is proposed to accept such tenders the -- previous approval of the authority specified therein should be obtained. This rule was framed under the Madras Local Boards Act, 1920 as amended and as such it can apply only to acceptance of tenders for contracts in respect of local -- board works. Apart from this, the Council accepted a higher tender about a week before the publication of the rule. No previous approval of the Superintending Engineer was therefore applied for before accepting the tender even though the principle underlying the rule could be applied to Municipal works also

3. Tenders for the work of constructing sheds in the -- shandy market at Udipi the cost of which was estimated at Rs. 850, were called for in May 1943. For the reasons stated in para 1 supra there was no competition and only one tender quoting 12% above estimate rates was received. Applying the principle of the rule issued in G.O. No. 1491 L.A., dated -- 8-4-1943, the approval of the Superintending Engineer, Coimbatore circle was applied for and he was pleased to approve the acceptance of the tender as per instructions contained in G.O. No. 1842 L.A., dated 16-6-'43. The G.O. Quoted

P.T.O.

Executive Engineer has not been received by ... requested for a copy of it. The tenderer has now declined to enter into an agreement and undertake the work presumeably because the market rates of several articles have gone up since them. The matter is now -- pending with the Contract Committee.

4. As I presumed that the Government have required the Municipal Councils to obtain the previous approval of the Superintending Engineer concerned for the acceptance of tenders above estimate rates, the -- approval of the Superintending Engineer (Public Works Department) Coimbatore circle was applied for to approve the action of the Council in accepting the only tender for the work of constructing the latrine referred to in para 1 above. The Superintending Engineer in his letter No. 1635 M dated 3-8-1943 (Copy enclosed) has, for the reasons stated therein, not accorded his approval and has asked me to apply for the sanction of Government. I therefore request that the Government may be pleased to approve the action of the Council in accepting the only tender quoting 20% above the estimate rates for the work of constructing a latrine in Sodemutt lane for the following reasons in addition to the one stated in para ~~2~~ supra.

(1) The work was an urgent one as it was in the vicinity of the -- Temple square and it had to be undertaken as the District Health Officer, was making the suggestion repeatedly every year in his inspection notes.

(ii)- If the work was not commenced immediately there was the possibility of the tenderer refusing to do the work on the gound that the cost of materials had gone up.

In this connection the kind attention of the Government is invited to my reference R.O.C. No. C1-2965/43 dated 11-8-1943. I solicit early orders in the matter.

Engineer before Council's acceptance of the tender \ This has not been done.

2. In this office No. 1524M dated 16-7-1942 you have been informed that 45% increase over the Schedule of rates has been approved from 1-7-42 and that Government will have to be addressed for paying any excess over the sanctioned rates to the contractors for all works in progress. Since the Council in its resolution No. 12 dated 19-4-42 has accepted the only tender which is more than the estimate and resolved to commence the work at once, it cannot now be approved by me with reference to the G.O. -- referred to above which was received in June 42. Hence you may address the Government in the matter.

It is presumed that the work is in progress.

The Commissioner should have referred the matter immediately to the Superintending Engineer or to Government before acceptance of the tender. This was not done. However, in the circumstances explained by the Commissioner, and in view of the fact that the work is stated to be nearing completion, the Council's action in having accepted the tender in excess of the estimate rates may be condoned.
